

# TedAC KFR 102

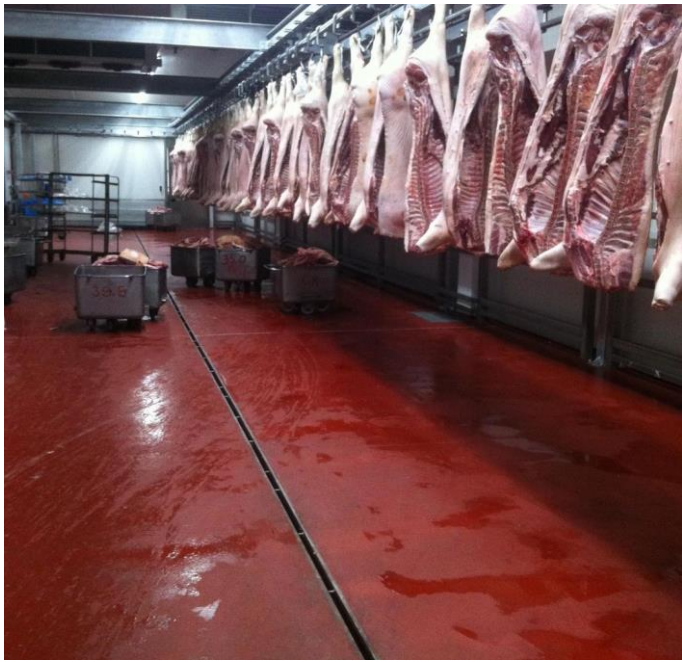

## MMA FLOOR COATINGS

We specialize in producing high-quality MMA floor coatings. **TedAC KFR 102** offers fast installation, chemical and abrasion resistance, anti-slip properties and the ability to be installed in tough conditions. It is suitable for a variety of environments, including industrial factories, food production facilities, and high-traffic areas. Installation is quick and the flooring has a long lifespan.

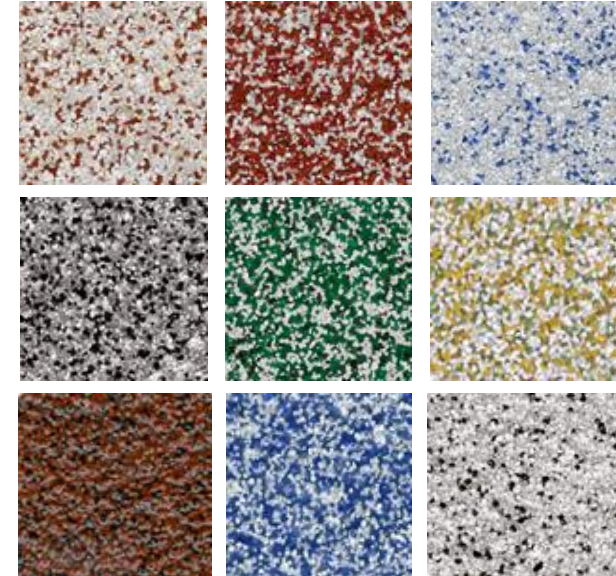

- MMA flooring offers exceptional durability and can withstand heavy foot traffic and impact.
- It has a fast curing time, allowing for quick installation and minimal downtime.
- MMA flooring is resistant to chemicals, making it suitable for industrial and commercial environments.
- It provides a seamless and smooth surface, reducing the risk of trip hazards and facilitating easy cleaning and maintenance.

- MMA flooring is ideal for commercial kitchens, as it is resistant to stains, heat, and grease.
- It is also suitable for healthcare facilities, such as hospitals and clinics, due to its hygienic properties and resistance to chemicals.
- MMA flooring can be installed in industrial settings, warehouses, and garages, where durability and chemical resistance are crucial.
- Additionally, it is a popular choice for retail stores, schools, and other high-traffic areas that require a durable and low-maintenance flooring solution.
