Hot Rolled Round Bar

Ø18-130mm
(TS EN 10060)

- S235JR/S355JR/3SP
- SAE 1020/1040/1045/1050

Cold Drawn Round Bar

Ø4-80mm
(TS EN 10278)

- S235JR/S355JR/3SP
- SAE 1008/1018/1020/1040/1045/1050

Cold Drawn Hexagonal Bar

H5-70mm
(TS EN 10061, TS EN 10278)

- S235JR/S355JR
- SAE 1008/1018/1020/1040/1045/1050

Hot/Cold Square Bar

#4-60mm
(TS EN 10278, TS EN 10059)

- S235JR/S355JR
- SAE 1008/1018/1020/1040/1045/1050

Peeled and Grinded Round Bar

Ø20-80mm
(TS EN 10278)

- S355JR
- SAE 1040/1045

Peeled Round Bar

Ø20-80mm
(TS EN 10278)

- S355JR
- SAE 1040/1045

IPE Profile

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

Hot/Cold Flat Bar

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

NPU Profile

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

HEA Profile

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

NPI Profile

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

Equal Angle

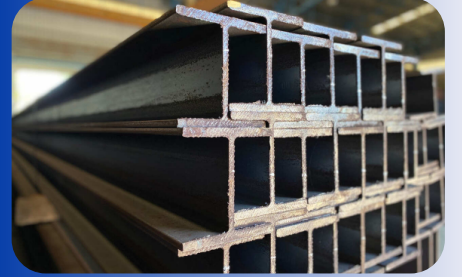

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

Steel Pipe

(DIN - EN - ASTM)

- S235JR/S355JR
- SAE 1045
- ASTM A 572 GRADE 50

About Us

Our company, a family-owned enterprise, entered the Turkish industrial sector in 1955 with a small lathe workshop established in Karabük by Mustafa Saka. Shortly thereafter, in 1956, the company began producing reinforcing steel at a small hot rolling mill employing twelve people.

Following the passing of Mustafa Saka in 1968, the company continued its operations under the name Mustafa Saka Heirs. In 1989, it was reorganized as a joint-stock company and adopted its current name, SAKA Demir Çelik Sanayi ve Ticaret A.Ş.

Today, we are a reliable force in global industrial production, specializing in the manufacture of high-strength carbon steels. Distinguished by exceptional durability, our steels deliver quality, reliability, and sustainability to markets around the world.
