Speed is a Strategy

3E Logistics acts with the awareness that speed in transportation is not just an advantage, but a necessity. Accurate route planning, minimal waiting time, and optimal vehicle rotation not only **save time**, but also ensure **uninterrupted** shipments.

Operational speed is not only the delivery time; it also affects customer satisfaction, cost balance and continuity of the supply chain. Therefore, in the transportation sector, where every second counts, working with **3E Logistics** is a strategic advantage gained against time.

Green Line

We are not only interested in transporting products, but we also care about the world through which those products pass. At 3E Logistics, we integrate environmentally friendly practices into every step of our operations, from route planning to packaging choices.

By leveraging real-time data, AI-powered optimization, and technologies that reduce carbon emissions, we embrace a smarter and more sustainable logistics approach.

While providing high-quality service today, we are determined to protect the world of tomorrow

Our responsibility goes beyond borders.

E4pl Logistics

E4pl Logistics is the global brand of 3E Logistics that carries out its international operations. Actively operating in six countries with offices in **China, Canada, Kazakhstan, Belgium, Montenegro,** and **Morocco**, E4pl offers end-to-end logistics solutions, ensuring high efficiency and operational flexibility for its clients.

Especially **land, air, sea** and **rail transportation**; It stands out with its integrated service model in areas such as **storage, distribution, customs clearance** and **project logistics**.

Making a difference with real-time tracking, artificial intelligence-supported route optimization and sustainable logistics practices, E4pl Logistics aims to increase customer satisfaction and operational success simultaneously by developing solutions tailored to each sector.

Guler Customs Consultancy

At 3E Logistics, we understand that logistics processes are not just about transportation activities. With this understanding, we cooperate with **Güler Customs Consultancy**, one of the leading companies in the sector, in customs procedures, which is one of the most critical stages of foreign trade.

Güler Customs, which has been standing out with its expert staff and technology-integrated process management since **2002**; It makes a strategic contribution to our supply chain with full **compliance with the legislation, rapid declaration preparation** and **sustainable operation support**.

Our collaborative working culture ensures that processes proceed accurately, **transparently**, and **on time**, while allowing us to offer a business model that inspires confidence in our customers.

Together We Create Value

3E Logistics sees customer experience not only as a part of the service but also as a determining element of success. In the projects we carry out with our business partners from different sectors, we raise the bar of operational satisfaction day by day thanks to our innovative logistics solutions that provide up to **40% improvement** in process efficiency.

With our multimodal transportation infrastructure, automated delivery flows, demand-sensitive planning systems and data-based process improvement approaches, we adapt to the logistics dynamics of our business partners.

Today, we continue to build **trust-based and long-term** collaborations with our wide customer portfolio, including companies from fields such as manufacturing, retail, health and technology.
