

FRESH

Wood pulp based cellulosic fibers, made out of pure wooden chips from the trees.

Fiber are made from natural materials and are compostable and biodegradable, so they are recognized to be sustainable textiles.

The towels are soft , strong and absorbent, especially when blended with Turkish Aegean Combed Cotton.

PERFORMANCE

Did you know colors hold the power to influence our emotions and behaviour.

Due to this fact we have been using indanthren dyes to ensure that our towels retain their vibrant colors to extend their lifespan and to prevent colour bleeding and smudging.
