MODERN SKETCH

Designed for the little artisans of urban life, the Modern Sketch collection reimagines a bohemian spirit through sketch-like patterns and modern lines.

In an era where children follow the rhythm of grown-up fashion to express their own style, the collection is shaped by a sense of high design and individuality. Every piece is created to offer a wardrobe that feels both stylish and authentically unique.

Embracing a mix & match philosophy, the designs allow effortless combinations, easy to layer, easy to love. For boys, the energy of indigo and blue meets the calm simplicity of white and beige, while in girls' looks, indigo dances with pinks and fuchsias, adding both movement and understated grace. Floral and striped patterns appear in the girls' pieces, while the boys' side interprets them through abstract motifs inspired by natural forms. Soft tulle details nod to bohemian elegance, and pink-white stripes bring a touch of modern freshness to the story.

The Texture of Time

Blending ancient elegance with modern dynamism, The Texture of Time reinterprets the aesthetics of the Hellenistic era through the vibrant energy of today's children. Inspired by ancient pottery art, the collection carries the subtle traces of a journey through time, whispers of the past woven into every thread. Vases that murmur forgotten stories, laurel leaves that symbolize victory, and graceful column motifs that echo timeless beauty. At the heart of the story stands a young explorer, who one day discovers embroidered fabrics in her grandmother's old chest. As she touches them, the past awakens: fabrics fluttering in the seaside breeze, children playing under olive trees, and the sunlight of ancient days reborn in modern forms.

This collection offers children an identity that carries the grace of the past yet looks toward the future. With modern lines, relaxed silhouettes, and natural fabrics, it grants freedom of movement, bridging history and the present, and inspiring every child to write their own story.

The Texture of Time

Blending ancient elegance with modern dynamism, The Texture of Time reinterprets the aesthetics of the Hellenistic era through the vibrant energy of today's children. Inspired by ancient pottery art, the collection carries the subtle traces of a journey through time, whispers of the past woven into every thread. Vases that murmur forgotten stories, laurel leaves that symbolize victory, and graceful column motifs that echo timeless beauty. At the heart of the story stands a young explorer, who one day discovers embroidered fabrics in her grandmother's old chest. As she touches them, the past awakens: fabrics fluttering in the seaside breeze, children playing under olive trees, and the sunlight of ancient days reborn in modern forms.

This collection offers children an identity that carries the grace of the past yet looks toward the future. With modern lines, relaxed silhouettes, and natural fabrics, it grants freedom of movement, bridging history and the present, and inspiring every child to write their own story.

GIRLS / 0-5 / 2026 SPRING & SUMMER

MODERN SKETCH

Designed for the little artisans of urban life, the Modern Sketch collection reimagines a bohemian spirit through sketch-like patterns and modern lines.

In an era where children follow the rhythm of grown-up fashion to express their own style, the collection is shaped by a sense of high design and individuality. Every piece is created to offer a wardrobe that feels both stylish and authentically unique.

Embracing a mix & match philosophy, the designs allow effortless combinations, easy to layer, easy to love. For boys, the energy of indigo and blue meets the calm simplicity of white and beige, while in girls' looks, indigo dances with pinks and fuchsias, adding both movement and understated grace. Floral and striped patterns appear in the girls' pieces, while the boys' side interprets them through abstract motifs inspired by natural forms. Soft tulle details nod to bohemian elegance, and pink-white stripes bring a touch of modern freshness to the story.

The Texture of Time

Blending ancient elegance with modern dynamism, The Texture of Time reinterprets the aesthetics of the Hellenistic era through the vibrant energy of today's children. Inspired by ancient pottery art, the collection carries the subtle traces of a journey through time, whispers of the past woven into every thread. Vases that murmur forgotten stories, laurel leaves that symbolize victory, and graceful column motifs that echo timeless beauty. At the heart of the story stands a young explorer, who one day discovers embroidered fabrics in her grandmother's old chest. As she touches them, the past awakens: fabrics fluttering in the seaside breeze, children playing under olive trees, and the sunlight of ancient days reborn in modern forms.

This collection offers children an identity that carries the grace of the past yet looks toward the future. With modern lines, relaxed silhouettes, and natural fabrics, it grants freedom of movement, bridging history and the present, and inspiring every child to write their own story.

GIRLS / 6-12 / 2026 SPRING & SUMMER

MODERN SKETCH

Designed for the little artisans of urban life, the Modern Sketch collection reimagines a bohemian spirit through sketch-like patterns and modern lines.

In an era where children follow the rhythm of grown-up fashion to express their own style, the collection is shaped by a sense of high design and individuality. Every piece is created to offer a wardrobe that feels both stylish and authentically unique.

Embracing a mix & match philosophy, the designs allow effortless combinations, easy to layer, easy to love. For boys, the energy of indigo and blue meets the calm simplicity of white and beige, while in girls' looks, indigo dances with pinks and fuchsias, adding both movement and understated grace. Floral and striped patterns appear in the girls' pieces, while the boys' side interprets them through abstract motifs inspired by natural forms. Soft tulle details nod to bohemian elegance, and pink-white stripes bring a touch of modern freshness to the story.

NOVA ANTIQUE

The Texture of Time

Blending ancient elegance with modern dynamism, The Texture of Time reinterprets the aesthetics of the Hellenistic era through the vibrant energy of today's children. Inspired by ancient pottery art, the collection carries the subtle traces of a journey through time, whispers of the past woven into every thread. Vases that murmur forgotten stories, laurel leaves that symbolize victory, and graceful column motifs that echo timeless beauty. At the heart of the story stands a young explorer, who one day discovers embroidered fabrics in her grandmother's old chest. As she touches them, the past awakens: fabrics fluttering in the seaside breeze, children playing under olive trees, and the sunlight of ancient days reborn in modern forms.

This collection offers children an identity that carries the grace of the past yet looks toward the future. With modern lines, relaxed silhouettes, and natural fabrics, it grants freedom of movement, bridging history and the present, and inspiring every child to write their own story.

TINY SEED

The Tiny Seed theme draws its inspiration from the dahlia flower, a bloom that radiates warmth, color and joy.

Bringing together the soft yellow of sunlight and the gentle green of dahlia leaves, the collection reflects the vibrant spirit of summer.

Just as dahlias flourish and shine brighter the more sunlight they receive, the palette of this theme mirrors that same brilliance. The prints feature the popular “butter yellow” hue; a tender, luminous yellow, paired with a soft green chosen from the flower’s own leaves, forming the collection’s signature colors.

For girls, a stripe-and-dahlia hybrid pattern, enriched with jacquard fabrics, creates an urban yet romantic look. For boys, garden-inspired graphics, subtle stripe-reference textures, and relaxed, modern silhouettes bring a fresh and natural aesthetic.

Tiny Seed celebrates growth, sunlight, and the joyful bloom of childhood just like a dahlia opening its petals to the summer sky.

TABLE OF MEMORIES

Children grow, but memories stay and among the sweetest of those memories are the family Sunday breakfasts shared around a joyful table.

Sometimes it's the strawberry jam carefully prepared by a grandmother, sometimes the laughter and long conversations that soften the morning light.

Inspired by these heartfelt moments, this theme was born as a collection that celebrates the small memories that leave lasting traces.

The timeless gingham pattern, a classic symbol of cheerful family tables, is reimagined through the lively energy of children bringing this nostalgic story into the present with warmth and playful charm.

TINY SEED

The Tiny Seed theme draws its inspiration from the dahlia flower, a bloom that radiates warmth, color and joy.

Bringing together the soft yellow of sunlight and the gentle green of dahlia leaves, the collection reflects the vibrant spirit of summer.

Just as dahlias flourish and shine brighter the more sunlight they receive, the palette of this theme mirrors that same brilliance. The prints feature the popular “butter yellow” hue; a tender, luminous yellow, paired with a soft green chosen from the flower’s own leaves, forming the collection’s signature colors.

For girls, a stripe-and-dahlia hybrid pattern, enriched with jacquard fabrics, creates an urban yet romantic look. For boys, garden-inspired graphics, subtle stripe-reference textures, and relaxed, modern silhouettes bring a fresh and natural aesthetic.

Tiny Seed celebrates growth, sunlight, and the joyful bloom of childhood just like a dahlia opening its petals to the summer sky.
