About Us

As Eskon Makina, we produce all kinds of degreasing and washing products and special machines for different areas by our professional staff in industrial washing and degreasing systems. We closely follow the constantly changing and advancing technologies in the automotive, machining and food industry sectors. On the other hand, we attach importance to uninterrupted customer satisfaction and adopt the understanding of quality products and professional service as our basic principle.

Our Activity Areas

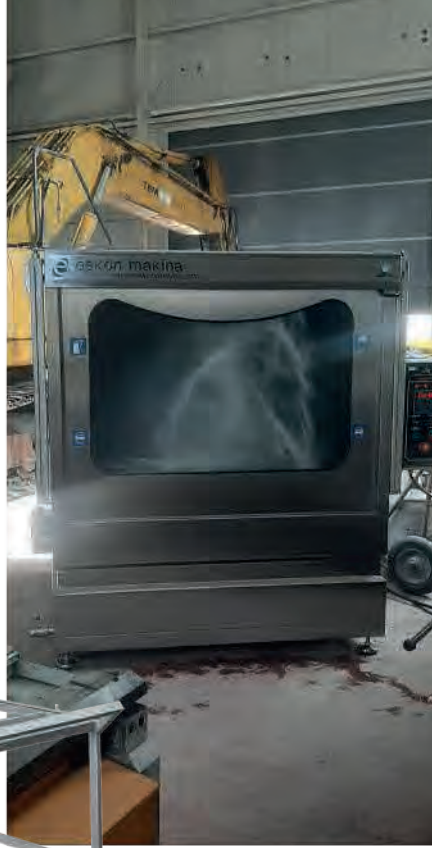

Diesel particulate filter (DPF) washing machine
Alloy Wheel Lathe
High pressure parts cleaning cabinet
Pressure parts washing machines with rotating baskets
Rotary basket pressure baklava tray washing machines
Conveyor washing line

Sectors We Produce

Food industry
Automotive, Heavy Vehicle Maintenance and Washing Sector
Machining Industry
Coating Industry
Metal Industry

FRONT LOADER PARTS WASHING MACHINE

ESY-1500

Basket Diameter		1350 mm.
Body Structure		CR 430
Heating		2x 7,5 kW.
Loading Trolley		Available
Glass Cover		Available
Washing Line		2x 2 hp.

Temperature Clock		Available
Oil Skimmer		Optional
Pneumatic		Festo
Vapor Removal		Optional
Lighting		Optional
Volt		380 v. - 220 v.

TOP LOADER PARTS WASHING MACHINE

ESY-1250

Basket Diameter		1150 mm.
Body Structure		CR 430
Heating		2x 7,5 kW.
Loading Trolley		Available

Temperature Clock		Available
Oil Skimmer		Optional
Vapor Removal		Optional
Washing Line		1x 2 hp.

MANUAL PARTS WASHING MACHINE

ESY-1000

Basket Diameter		850 mm.
Body Structure		CR 430
Heating		1x 7,5 kW.
Loading Trolley		Not Available

Temperature Clock		Available
Oil Skimmer		Optional
Vapor Removal		Ventilation
Washing Line		1x 2 hp.

DIESEL PARTICLE FILTER CLEANING MACHINE

DPF-1850

Heavy Vehicle DPF	Suitable
Hot Drying	250°
Test Report	Available
Automatic Washing	Available
Management Panel	Touch Screen
Washing Line	1x 3 hp.

Heating	2x 7,5 kW.
Automatic Water Intake	Optional
Cover	Pneumatic
Washing	3 Stages
Filter	4x Cartridge 1x Bag
Washing Gun	Optional

DIESEL PARTICLE FILTER CLEANING MACHINE

DPF-1000

Heavy Vehicle DPF	Not Suitable
Hot Drying	250°
Test Report	Available
Automatic Washing	Available
Management Panel	Touch Screen
Washing Line	1x 2 hp.

Heating	2x 7,5 kW.
Automatic Water Intake	Optional
Cover	Manual
Washing	3 Stages
Filter	4x Cartridge 1x Bag
Washing Gun	Optional

HIGH PRESSURE PARTS CLEANING CABINET

ETY-850, ETY-1100

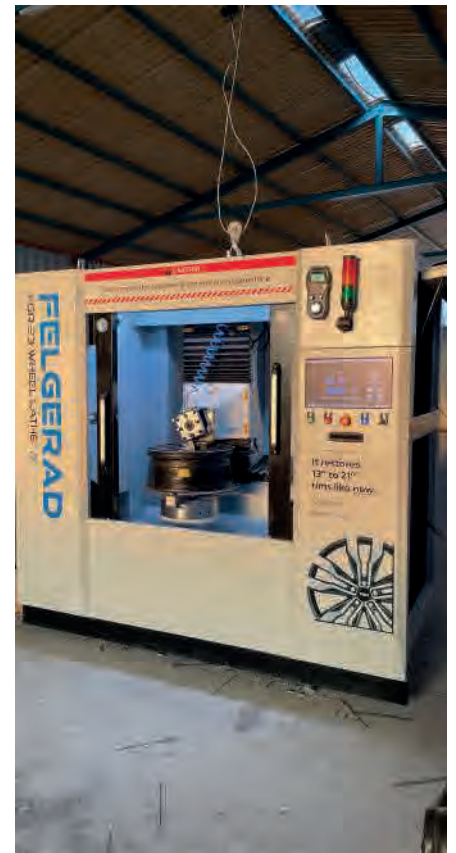

Pressure		150 bar
Cover		Manual, Pneumatic
Air Comb		Available
Wash Control		Foot Pedal
Air Gun		Available
Washing Line		1x 2,2 kW.

Heating		1 & 2x 7,5 kW.
Automatic Water Intake		Optional
Vapor Removal		Ventilation
Body Structure		CR 430
Filter		Cartridge
Washing Gun		Triggerless

FELGERAD ALLOY WHEEL LATHE

FGR-19, FGR-21, FGR-23, FGR-25

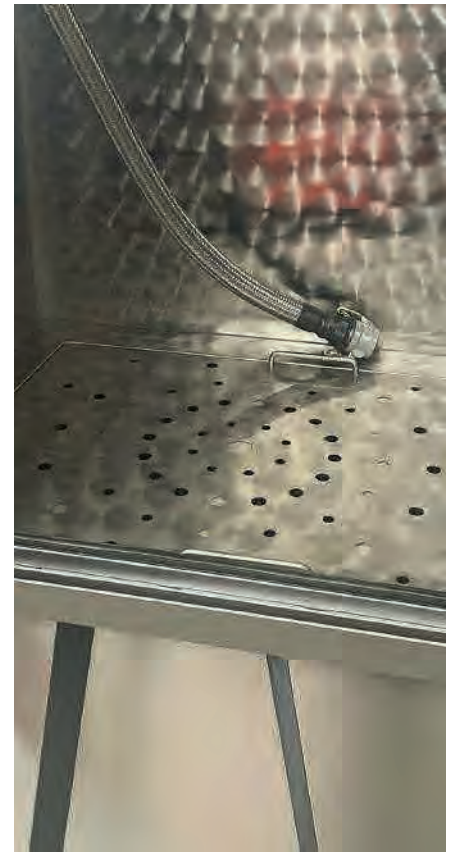

Inch Range		13"-21"
Cover		Manual, Pneumatic
Air Comb		Available
OS		Windows
Axis		2 Axis
Motor		1x 2,2 kW.

Measurement		Touch Probe
Control System		Motion Controller
Touch Screen		Available, 15.6"
Metal Chip Discharge		Available
Cover Protection		Glass With Sensor
Loading		Vertical

DIESEL PARTICLE FILTER CLEANING MACHINE

DPF-1200

Heavy Vehicle DPF	Not Suitable
Hot Drying	Not Available
Test Report	Not Available
Automatic Washing	Available
Management Panel	Digital Screen
Washing Line	1x 2 hp.

Heating	2x 7,5 kW.
Automatic Water Intake	Optional
Cover	Manual
Washing	3 Stages
Filter	1x Bag or 4x Cartridge
Washing Gun	Not Available

SPECIAL PRODUCTION

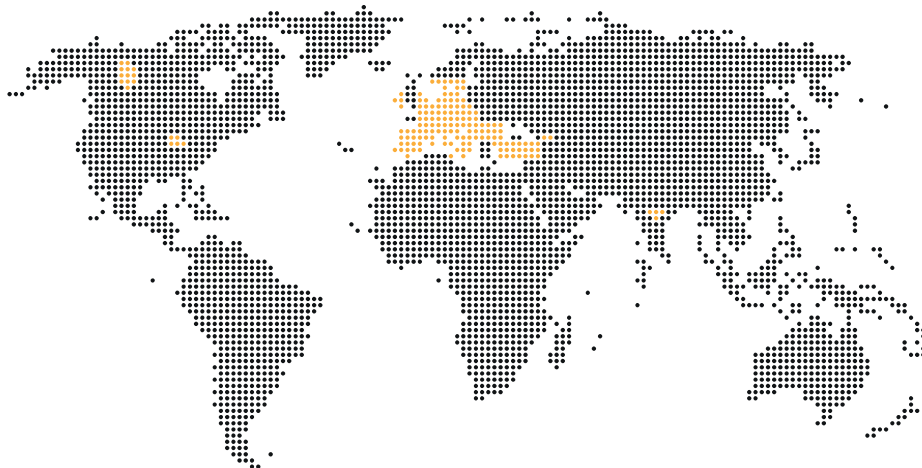

In addition to the standards of the machines we produce, we make changes in dimensions, raw materials and materials according to the demands of our customers.

Apart from the stock machines that we mass produce, we respond to demands based on years of experience, workmanship quality and knowledge.

TO 3 CONTINENTS AND 35 COUNTRIES EXPORT!

We are proud to export the machines we produce to 3 continents and 35 countries.
