

NEXT-GENERATION REFINING

Throughout history, gold has symbolized more than wealth—it has embodied trust, integrity, and lasting value.

At Garanti Refinery, we are redefining that trust for a new generation.

Rather than following conventional industry practices, we built our refinery from the ground up in accordance with Türkiye's latest regulatory framework and internationally recognized compliance standards. Every stage of our operation reflects our commitment to transparency, precision, and excellence.

With our official Gold Refinery Operating License, granted by the Ministry of Treasury and Finance on 22 August 2024, Garanti Refinery operates as a fully licensed and government-authorized precious metals refinery.

Our products represent far more than exceptional AU. They embody regulatory compliance, technological innovation, uncompromising quality, and complete traceability.

At Garanti Refinery, trust is not simply promised—it is independently verified.

Garanti Refinery. Refining Trust.
Delivering Excellence.

A VALUE THAT THRIVES FROM ISTANBUL TO THE WORLD

Founded on April 27, 2022, Garanti Refinery was established with the goal of bringing dynamism and transparency to the precious metals sector. We embrace the principle of “excellence” throughout the entire process, from production to the end user. With our experienced management and team of experts, We carry out not only refining, but provide; we provide services that meet international standards and add value to our economy.

AUTHORIZATION & REGULATORY COMPLIANCE

Full Compliance with the Ministry of Treasury and Finance 2023 Regulations

Operating in Full Compliance with Türkiye's Precious Metals Regulations

Garanti Refinery has established its entire operational infrastructure in full compliance with the Communiqué on the Procedures and Principles Governing the Operation of Refineries (No. 2023/1), issued by the Republic of Türkiye Ministry of Treasury and Finance in February 2023.

Designed from the outset to meet the latest regulatory requirements, our refinery reflects the highest standards of governance, transparency, and operational integrity.

Private Assay Office Authorization

Garanti Refinery holds an officially approved Private Assay Office Authorization Certificate, issued by the Directorate General of Mint and Stamp Printing House under the Republic of Türkiye Ministry of Treasury and Finance. This authorization ensures that all assaying, analytical testing, and quality control procedures are performed in accordance with officially recognized standards, providing our customers with reliable and accurate results.

Official Gold Refinery Operating License

Following a comprehensive regulatory assessment and inspection process, Garanti Refinery was granted its official Gold Refinery Operating License by the Republic of Türkiye Ministry of Treasury and Finance on 22 August 2024.

This authorization confirms that our refinery operates in full accordance with the legal and technical standards required for licensed precious metals refining in Türkiye.

Fully Integrated with the Precious Metals Tracking System (PMTS)

Garanti Refinery is fully integrated into the Precious Metals Tracking System (PMTS), the national traceability platform coordinated by the Republic of Türkiye Ministry of Treasury and Finance. Every stage of our production process is monitored and conducted in accordance with regulatory requirements, ensuring complete traceability, transparency, and compliance throughout the precious metals supply chain.

ADVANCED TECHNOLOGY FOR PERFECT AU

Founded on 27 April 2022, Garanti Refinery was established with a clear mission: to bring innovation, precision, and transparency to the precious metals industry.

We uphold the principle of excellence across every stage of our operations—from refining and assaying to final delivery. Backed by an experienced management team and highly skilled professionals, we go beyond refining precious metals; we deliver trusted, technology-driven solutions that align with international standards and create long-term value for the global economy.

LABORATORY SERVICES

Our state-of-the-art laboratory operates under Garanti Refinery and is equipped with advanced analytical technologies and a fully integrated testing infrastructure. We perform precise and reliable analysis of precious metal AU, supported by internationally recognized calibration standards. Our laboratory also holds a Special Assay House Authorization Certificate, issued by the Directorate General of Mint and Stamp Printing House (Darphane) under the Republic of Türkiye Ministry of Treasury and Finance. Through pioneering analytical methods and a highly qualified technical team, we ensure fast, accurate, and consistent results, delivering full confidence to our clients and partners.

Services Offered in Our Laboratory

- Cupellation Analysis
- AU and Assay Determination
- Chemical Analysis
- Precious Metal Testing
- Quality Control Measurements

UNREPLICABLE SECURITY SHIELD

FRONT SIDE

Security Packaging (CertiCard):

A specially engineered blister packaging system designed to protect product integrity. Once opened, the packaging is permanently deformed and cannot be resealed, ensuring tamper evidence.

MICROPRINTED SECURITY MARK

A hidden "GARANTI" microprint embedded within the letter "G", visible only under magnification.

QR Code Verification:

A unique digital identity assigned to every product, enabling instant authentication and traceability via mobile devices.

Special Hologram:

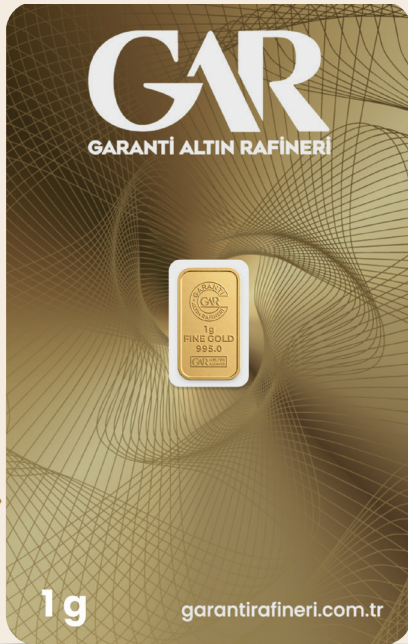

Advanced 3D hologram design that changes appearance depending on viewing angle, making replication virtually impossible.

Laser Engraving

A Serial number engraved on the bullion surface with micro-level precision.

CERTIFIED INVESTMENT FOR EVERY BUDGET

Designed for flexibility, accessibility, and liquidity across different investment needs.

AU: 995.0 / 999.9 (24 Karat)

Weights: 1g - 2.5g - 5g

AU: 995.0 / 999.9 (24 Karat)

Weights: 5g - 10g - 20g

STRONG ASSURANCE FOR LARGE INVESTMENTS

High-volume bullion solutions tailored for institutional and wholesale investors.

AU: 995.0 / 999.9 (24 Karat)

Weights: 50g - 100g

AU: 995.0 / 999.9 (24 Karat)

Weights: 250g - 500g - 1000g

RESPONSIBLE SOURCING & SUSTAINABILITY

At Garanti Refinery, we are deeply committed to responsible sourcing practices and ethical supply chain management.

We strictly adhere to internationally recognized responsible sourcing principles, ensuring that every gram of gold is processed with full transparency, integrity, and respect for environmental and ethical standards.

Through environmentally conscious production technologies and continuous process optimization, we aim to create sustainable value—not only for today's markets but also for future generations.
