ROYAL JELLY + GINSENG

Ingredients	
Active Ingredient	Per 1 Tablet
Red Ginseng (Root)	100 mg
Royal Jelly (6% HDA)	25 mg
Rosehip extract	50 mg
Vitamin C	30 mg
Propolis extract	25 mg
Carob powder	20 mg

Usage: It is recommended for adults aged 11 years and above to take one tablet twice a day.

Warning: It is not recommended to take with blood thinners. It is not recommended for use during pregnancy or breastfeeding. Individuals with chronic illnesses or those taking regular medication are advised to consult their physician before using this product. May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Eznevita Royal Jelly-Ginseng TABLETS is a dietary supplement that contains natural herbal extracts such as pollen, royal jelly, and carob extract. Bee pollen is one of the oldest nutritional supplements that has been used for many years. Bees collect pollen to feed their larvae and to produce royal jelly. Propolis contains resins, beeswax, fatty acids, essential oils, enzymes, flavonoids, polyphenols, pollen, vitamins, and minerals. Propolis is known for its powerful supportive and protective effects. Rosehip contains vitamins A, C, P, B1, B2, E, and K.

SAW PALMETTO

60
TABLETS

Ingredients

Active Ingredient	Per 2 Tablets	NRV%
Saw Palmetto Extract	320 mg	-
Pumpkin Seed Extract	100 mg	-
Nettle Seed Extract	100 mg	-
Zinc	10 mg	100

Usage: It is recommended for adults aged 11 years and above to take one tablet twice a day.

Warning: May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Saw Palmetto is a short palm species that grows in the southern regions of the United States. It has traditionally been included in various herbal preparations and is widely used in dietary supplements. The product formulation also contains pumpkin seed extract and nettle seed extract, both of which have been traditionally used in food supplements for many years.

Warning: May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Eznevita Multivitamin features a rich formulation designed to meet the daily vitamin and mineral requirements of men. It contains Saw Palmetto and Tribulus Terrestris extracts. Saw Palmetto is a palm species native to North America. The part that is beneficial to human health is its fruit. These fruits are rich in fatty acids, sterols, and flavonoids. It was first discovered and used by Native Americans. Tribulus terrestris grows prostrate along the ground. The Tribulus terrestris plant has yellow flowers and is known as an annual herb. It has been used for many years to help treat various ailments. Eznevita Multivitamin & Multimineral features an effective formulation with high-quality ingredients that complement each other.

Warning: May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Eznevit Multivitamin & Multimineral has a formulation enriched with rich ingredients designed to meet the daily vitamin and mineral needs of women. It contains antioxidant-rich components such as Q10, lutein, resveratrol, and inositol. Resveratrol is a plant compound that acts as an antioxidant. The best food sources include grapes, strawberries, and peanuts. Grapes produce this compound to protect themselves against ultraviolet radiation, stress, fungal infections, and injuries. Inositol is a six-carbon sugar that plays a role in many functions in the body. It is mostly found in nuts, beans, melons, citrus fruits, and whole grains. Eznevit Multivitamin & Multimineral features an effective formulation with high-quality ingredients that complement each other.

eznevit

TURMERIC EXTRACT

Ingredients

Active Ingredient	Per 1 Softgel
Turmeric Extract (95% Curcuminoid)	40 mg
Black Pepper (Piperine)	1 mg

Usage: Adults aged 11 and over should take one softgel once daily.

Warning: May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Eznevita Turmeric Softgel contains turmeric, a plant commonly found in South America with a fleshy underground stem called a rhizome, which has a deep orange color. When the stem is dried, it is ground into the bright yellow powder that is commonly used today. The turmeric root contains about 2.5% of the active compound curcumin. Curcumin is the most important and effective active ingredient in turmeric. It can only be produced in extract form through very specific methods. One of the most effective methods is obtaining it in softgel form combined with olive oil and black pepper. Eznevita Turmeric Softgel features a strong formulation that includes black pepper and olive oil for enhanced effectiveness.

GINSENG GINKGO BILOBA

Ingredients

Active Ingredient	Per 1 Tablet
Ginseng Extract	250 mg
Ginkgo Biloba Extract	120 mg

Usage: Adults aged 11 and over should take one tablet once daily.

Warning: It is not recommended to take with blood thinners. It is not recommended for use during pregnancy or breastfeeding. May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

The botanical name of ginseng, 'Panax', is derived from the Greek word panacea, which means "complete healing." It has been determined that ginseng varieties cultivated in other parts of the world are not as high in quality as Korean ginseng, which grows in ideal climatic and soil conditions. It is a perennial herb with a large taproot. The roots of 6-8-year-old plants can reach up to 10 centimeters in diameter and are red in color.

GLUCOSAMINE & CHONDROITIN & MSM

60
TABLETS

Ingredients

Active Ingredient	Per 2 tablets
Glucosamine Sulfate	1340 mg
Methyl sulfonylmethane (MSM)	330 mg
Chondroitin Sulfate	80 mg
Bromelain Extract (Pineapple fruit)	60 mg

Usage: It is recommended for adults aged 18 and over to take one tablet twice daily. Not suitable for individuals under 18 years of age. If this dietary supplement is used for more than three months, a doctor should be consulted.

Warning: Diabetic individuals should use this product under medical supervision. It is not recommended for use during pregnancy or breastfeeding. May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Eznevita Glucosamine + Chondroitin & MSM Tablets contain glucosamine sulfate, MSM, chondroitin sulfate, and bromelain extract. Glucosamine and chondroitin are essential molecules found in the body's cartilage tissue. Glucosamine can be synthesized naturally in the body or obtained from shellfish. MSM is an organic sulfur source required for collagen formation, which provides flexibility to joints and cartilage. Eznevita Glucosamine & MSM & Chondroitin features a powerful formulation enriched with high-quality ingredients.

MAGNESIUM COMPLEX

60
TABLETS

Ingredients

Active Ingredient	Per 1 Tablet	NRV%
Magnesium	200 mg	53,3
Vitamin B6	5 mg	357
Vitamin D3	200 IU	100

Usage: It is recommended for adults aged 11 and over to take one tablet daily.

Warning: May cause allergic reactions in people sensitive to its ingredients. Individuals who take regular medication or have chronic health conditions should not use this product without consulting their doctor.

Magnesium is the fourth most abundant mineral in the body and plays a vital role in many bodily functions. Magnesium exists in various forms. The magnesium malate contained in Eznevita Magnesium contributes to energy metabolism. Magnesium citrate has a higher rate of absorption into muscle tissue compared to other forms. Magnesium bisglycinate is a form with high bioavailability. There is a direct relationship between magnesium and vitamin D. Vitamin D requires magnesium to become active in the body. Magnesium absorption is also enhanced by vitamin D. Eznevita Magnesium features a strong formulation with rich content and high-quality raw materials.

Eznevita Multivitamin contains a rich formulation of vitamins and minerals, including vitamins A, D, E, C, B3, B6, and B12, as well as niacin and zinc. Since vitamins and minerals cannot be produced by the body, they must be obtained from external sources to ensure the healthy continuation of vital bodily functions.

Vitamin C contributes to the normal function of the immune system. Vitamin C increases iron absorption. It supports normal collagen formation necessary for the normal function of gums. Zinc contributes to the normal function of the immune system. Vitamin B6 contributes to the normal formation of red blood cells. Vitamin A supports the maintenance of normal vision. Vitamin D contributes to the maintenance of normal bones and supports the normal absorption of calcium and phosphorus. Vitamin B12 contributes to the normal function of the immune system. It also helps reduce tiredness and fatigue.
